Steen's photographs of Bandelier NM

Abstract

The intention of this document is to provide photographs and captions of Bandelier National Monument (BNM) to BNM resources management staff. All of the photograph slides and captions were accessed into the Los Alamos National Laboratory archives because the photographer, Charlie Steen, was a former Laboratory archaeologist.

Subject: Cultural Resource Photography for Bandelier National Monument, NPS

Dear Jamie Civitello,

Included in this document, you will find twenty-six images of scanned photograph slides and captions captured and recorded by Charlie Steen in the 1970s at Bandelier National Monument. Not all of the eighteen images have captions, and some photographs were captioned as a group rather than individually. We are sharing these photographs with you for your cultural resources records. The images are organized by Steen's slide number codification.

Thank you,

Hannah
